

HOW TO USE: The lanterns are made from a unique blend of hardened wax. The best way of providing care is taken when positioning it in your home. You should keep your lantern out of direct sunlight as over time will fade its colour. Best kept inside and taken out in the evening. Our lanterns also float beautifully creating an amazing glow reflected in the water. Simply light the candle and place in the centre of your lantern, on the glass plate. When the lantern is lit in the evening it will accentuate the finer details of this handmade product and it will radiate a beautiful ambiance created by rawLight® candle designers.

MAINTENANCE: A regular polish with a soft damp cloth or old stocking will make the colours in your lantern shine. This will also stop dust from settling onto your lantern.

NOTE: All lanterns are individually created and will not be exactly the same which makes them all unique to their own.

"**Imperfection is beauty**, madness is genius and it's better to be absolutely ridiculous than absolutely boring." Marilyn Monroe
